

TransVision Enterprises

A consulting firm with a select staff of internationally proven experts in the fields of management consulting, marketing communications, finance, property acquisition and leasing. Our ultimate goal is to grow companies and increase shareholder value according to our client's specific needs. We work diligently to transform our client's visions into real return on investment.

In today's business environment many entrepreneurs, startups and established businesses are struggling to understand the myriad complexities of the new hyper-connected, multi-cultural business landscape. From the lack of additional financing or difficulty finding the depth of management resources to key financial and development philosophies in domestic and international markets, the challenges are substantial.

With over 25 years of experience in a range of disciplines including corporate structure, international management, marketing, branding and international finance and sales; we assist and direct our clients with the development and implementation of viable business models in domestic and international markets. Our goal is to create flexible, reactive business frameworks which will guarantee success well into the future.

TransVision Enterprises has years of experience in multiple industries throughout the globe including: Financial Institutions, Bio Technology, Retail Chains, Manufacturing, Service Organizations, Medical Offices, International Development, Internet Companies, Construction, Legal, Transportation and Real Estate in The America's, SE Asia, China, Eastern & Western Europe, and The Middle East.

Company History, Experience & Services

We offer 25 years senior executive management and senior consulting services in multiple industries positioning companies for growth, increased shareholder value, and refined business infrastructure. We are acknowledged for the capacity to build consensus and drive solutions that meet short-, medium-, and long-term goals. Our communicative, energetic style coupled with strategic vision has transformed multimillion-dollar losses to strong profit performance. We are skilled in the integration of acquisitions and identifying and exploiting opportunities to maximize ROI and create significant shareholder/VC value. We are experts in restoring profitability, devising case-management programs, and managing sensitive cultural change integrations.

Experience: with Credit Suisse, Standard & Poors, Cinemark International, Monolite Industries, Coca Cola, Walmart and others.
